FOR IMMEDIATE RELEASE

### **Navy Federal Now Offering V.me by Visa®**

*Credit Union Offers Digital Wallet Service to Benefit Digitally-Inclined Membership*

**Vienna, Va. (August 8, 2013)** – [Navy Federal Credit Union](http://www.navyfederal.org) announced today that it now offers its 4.4 million members V.me by Visa, the digital wallet service by Visa. Members will have a means of online payment that is more convenient and secure than previous electronic purchasing environments.

“We’re always looking for ways to offer better products and simplify finances for our members,” said Randy Hopper, AVP of credit card lending. “Offering a digital wallet service is a great way we can do this. Given that our members gravitate toward digital channels, we see this as an excellent opportunity to offer something that makes their lives easier.”

Navy Federal members will be able to enroll Visa and other payment card accounts in V.me and make payments online by simply entering a username and password. The digital wallet service is designed to simplify e-commerce, whether from a desktop, laptop, or mobile device. The service also provides a more secure online shopping experience for users, as account holders are protected by layers of security within Visa’s network.

[The digital wallet offering](#) reflects the increasing number of online and mobile services the credit union is making available to its members. With other apps currently in development, Navy Federal members will increasingly benefit from online and mobile banking options through the credit union in the coming months.

#### **About Navy Federal Credit Union**

Navy Federal Credit Union is the world’s largest credit union, with \$54 billion in assets, 4 million members, 231 branches, and a workforce of over 11,000 employees worldwide. The credit union serves all Department of Defense and Coast Guard Active Duty, civilian, and contractor personnel and their families.
