Apple Pay™ Now Available to Navy Federal Members

VIENNA, Va. (November 3, 2014) – Navy Federal Credit Union announced today that its five million members now have access to Apple Pay™. This new service transforms mobile payments with an easy, secure and private way to pay. Members can use Apple Pay with the new iPhone® 6, iPhone 6 plus, Apple Watch™, iPad Air™ 2 and iPad mini™ 3.

“We’re excited to make this new service available to our members starting today,” said Randy Hopper, vice president of credit cards and business optimization at Navy Federal. “Our members live fast-paced and mobile lives. And, they have enthusiastically adopted our mobile banking solutions. Now, with Apple Pay, they’ll be able to save time when shopping while having a safe and easy payment experience.”

Apple Pay expands digital servicing for Navy Federal's members – many of whom are active duty military personnel and their families – who rely on mobile technology in their daily lives. The credit union cites this as a major driver for its emphasis on digital service channels.
