FOR IMMEDIATE RELEASE

Navy Federal Recognized as Top Place to Work for IT Professionals

First credit union to make the list

VIENNA, Va. (June 22, 2015) – [Navy Federal Credit Union](http://www.navyfederal.org) announced today, it is one of Computerworld’s 2015 “100 Best Places to Work in IT.” The credit union, serving all Department of Defense and Coast Guard active duty, civilian contractor personnel, and their families, ranked No. 26 among large organizations.

Computerworld’s “100 Best” list is in its 22nd year of existence, and has not had a credit union make the list until now. The ranking is Navy Federal first “Best Places to Work” ranking in the IT category.

"I'm thrilled that our IT employees regard Navy Federal’s Information Services Department (ISD) as a best place to work in IT," said Executive Vice President and Chief Information Officer, Bill Hills. "We are fortunate to have over 1,100 highly skilled and talented IT professionals dedicated to supporting Navy Federal’s mission, serving our 5.5 million members, and our 12,000 employees."

Computerworld evaluates companies based on employee survey responses, and on company benefits and other programs. Employee responses comprise half of the total scoring. Organizations given this award excel in four human resource functions: career development, retention, benefits, and training.

"The entire ISD leadership team is committed to fostering an environment that makes Navy Federal an IT employer of choice. As we continue to grow, particularly at our Pensacola campuses in Florida, we will be looking for more great talent to join our team," said Hills.

Navy Federal is also a FORTUNE magazine “100 Best Companies to Work For” in 2015, a Best Places to Work for Millennials, and a Most Valuable Employers (MVE) for Military. Computerworld is published by IDG Enterprise, a subsidiary of International Data Group (IDG), the world's leading media, events and research company. Company information is available at <http://www.idgenterprise.com>.

About the Best Places to Work in IT list: The Best Places to Work in Information Technology (IT) list is an annual ranking of the top 100 work environments for technology professionals by IDG's Computerworld. The list is compiled based on a comprehensive questionnaire regarding company offerings in categories such as benefits, career development, training and retention. In addition, Computerworld conducts extensive surveys of IT workers, and their responses factor heavily in determining the rankings.
