VIENNA, Va. (June 23, 2020) – For a second year in a row, [Navy Federal Credit Union](#) ranks in the top 10 for IDG’s [Computerworld 2020 Best Places to Work in IT](#). This is the credit union’s sixth consecutive year to make the list, ranking ninth among 52 large organizations. Navy Federal remains the only credit union among the large organizations.

Navy Federal’s Information Services Department provides support for the credit union’s 21,500 employees and over 9.2 million members.

Computerworld, in partnership with IDG’s Insider Pro, compiles its Best Places to Work in IT list based on a comprehensive questionnaire regarding company offerings in categories such as benefits, career development, training and retention. Additionally, IT professionals are surveyed and their responses are factored heavily in determining the rankings.

“As technology continues to evolve more rapidly than ever, attracting and retaining top IT talent to research, deploy and maintain that technology has never been more important or more challenging,” said Mark Lewis, VP Audience Development at IDG’s Insider Pro. “Companies that have earned a spot on the Insider Pro and Computerworld 2020 Best Place to Work in IT list share a common denominator: They create an environment that not only rewards workers with competitive compensation and benefits, but they also foster a spirit of diversity, social responsibility, training and innovation.”
