Federally insured by NCUA. ¹Automatic Payments Discount: The discount requires continued enrollment of automatic payments. The borrower authorizes automatic payments from a personal account via Automated Clearing House (ACH). If automatic payments are canceled any time after enrollment, the rate reduction will not apply until the automatic payments are reinstated. Automatic payments may be suspended during periods of forbearance and deferment. For variable-rate loans, the APR, including the 0.25% rate reduction, may not fall below the floor rate, which is 2.99% for Navy Federal Student Loans and 1.43% for Navy Federal Student Refinance Loans. ²Subject to Navy Federal Credit Union approval. A request to release a co-signer requires that the borrower has made consecutive timely payments during the repayment period with no periods of forbearance or deferment. The “repayment period” begins after any In-School and Grace Periods. “Timely payment” means each full principal and interest payment is made no later than the 15th day after the scheduled due date of the payment. “Consecutive payment” means the regularly scheduled monthly payment must be made 24 months straight for private student loans, and 12 months straight for refinance loans, without any interruption immediately prior to the release request. To qualify for a co-signer release, the borrower must submit a request, meet the consecutive, timely payment requirements, provide proof of income and pass a credit check. ³Variable-Rate Payment Example: Assuming a $10,000 loan amount, a 3.26% APR, and a 15-year term, you would make 180 monthly payments of $70.32 to repay this loan. If the APR is 10.26% and the loan amount remains $10,000, you would make 180 monthly payments of $109.06. The APR may increase during the life of the loan and can result in higher monthly payments. Fixed-Rate Payment Example: Assuming a $10,000 loan amount, a 15-year term, and a 4.68% APR, you would make 180 monthly payments of $77.42. If the APR is 12.03% and the loan amount remains $10,000, you would make 180 monthly payments of $120.21.
